

## P.G. DIPLOMA in Healthcare administration course from HBI-IMA in collaboration with INLEAD.

To address the acute shortfall in the talent pool, in a pioneering effort, **IMA-HBI** has partnered with **Indian institute of Learning and Advanced Development (INLEAD)** to jointly create, administer and certify an exclusive training Program for Healthcare Administration professionals. The alliance is aimed at bringing together the expertise of veterans from the Healthcare and professional education Industry to jointly create a comprehensive training PG Diploma program deliberated as per the requirements of Healthcare industry and delivered with latest and contemporary pedagogic methodology. The alliance has resulted in **Post Graduate Diploma in Healthcare Administration**: An exclusive program providing valuable training to graduate students transform their human potential to gainfully employable human capital with a high investment index helping them being gainfully employed in the Healthcare Industry.

**IMA-HBI** will ensure 6 months of professional exposure to the participating students with on-job training assignments at **IMA-HBI** affiliate Hospitals dealing with more real-life situations than mere pedantic teaching in the classroom. The program will be facilitated by a team of specially selected faculty, senior academicians with industry experience, recruiters and successful Healthcare Administrators with relevant academic exposure. Together, they will have the authority of theory and practice to deliver the demanding curriculum.

### **Healthcare Administration**

In collaboration with Indian Medical Association - Hospital Board of India

#### **Industry Overview:**

The healthcare industry has grown tremendously over the last few years. The emergence of medical tourism and swift development in technologies, has led to making the health sector as one of the fastest growing sectors in India. Several corporate and business organizations have forayed into the healthcare sector, resulting in the healthcare delivery system becoming more organized, systematic and efficient. This has subsequently led to a massive demand for qualified, well trained and dedicated healthcare management professionals

#### **Program Overview:**

INLEAD's Post Graduate Diploma Program in Healthcare Administration prepares students to manage the administrative aspects of the healthcare facility and explore various career opportunities in this field. The program modules have been jointly developed in consultation with Indian Medical Association - Hospital Board of India (IMA-HBI) and extensive research conducted for understanding the sectoral specialization demands and trends. An exclusive LEAD (Leadership Education and Abilities Development Program) certification is awarded to INLEAD students enabling a holistic improvement in employability quotient.

INLEAD's unique pedagogic methodology consists of 4 quarters of learning experiences:

INLEAD's Post Graduate Diploma program in Healthcare Administration prepares students to manage the administrative domains of healthcare facility and enables them to tap into the emerging career opportunities in this field.
